

I am an avid XM listener. Provided to me by this service for a fee, are commercial free music, talk radio, news, and local traffic and weather. I am very happy with the services I am paying for. Now, from what I understand, the NAB is trying to tell me what I can listen to, even though I no longer patronize their broadcast radio waves. That's like Home Depot telling me I can't use a screwdriver I purchased from ACE hardware. It doesn't make any sense. Please, leave my XM radio alone. I pay for it. In a world of commercials, war, famine, and GREED. That is what this petition boils down to. Who can make the most money. Well, I as a middle class American, am tired of corporations fighting tooth and nail over money they plan on using to purchase 16,000 dollar umbrella stands, and personal golf courses.

Thank you for your time.
